

How it Works

Instant Telegram Alerts

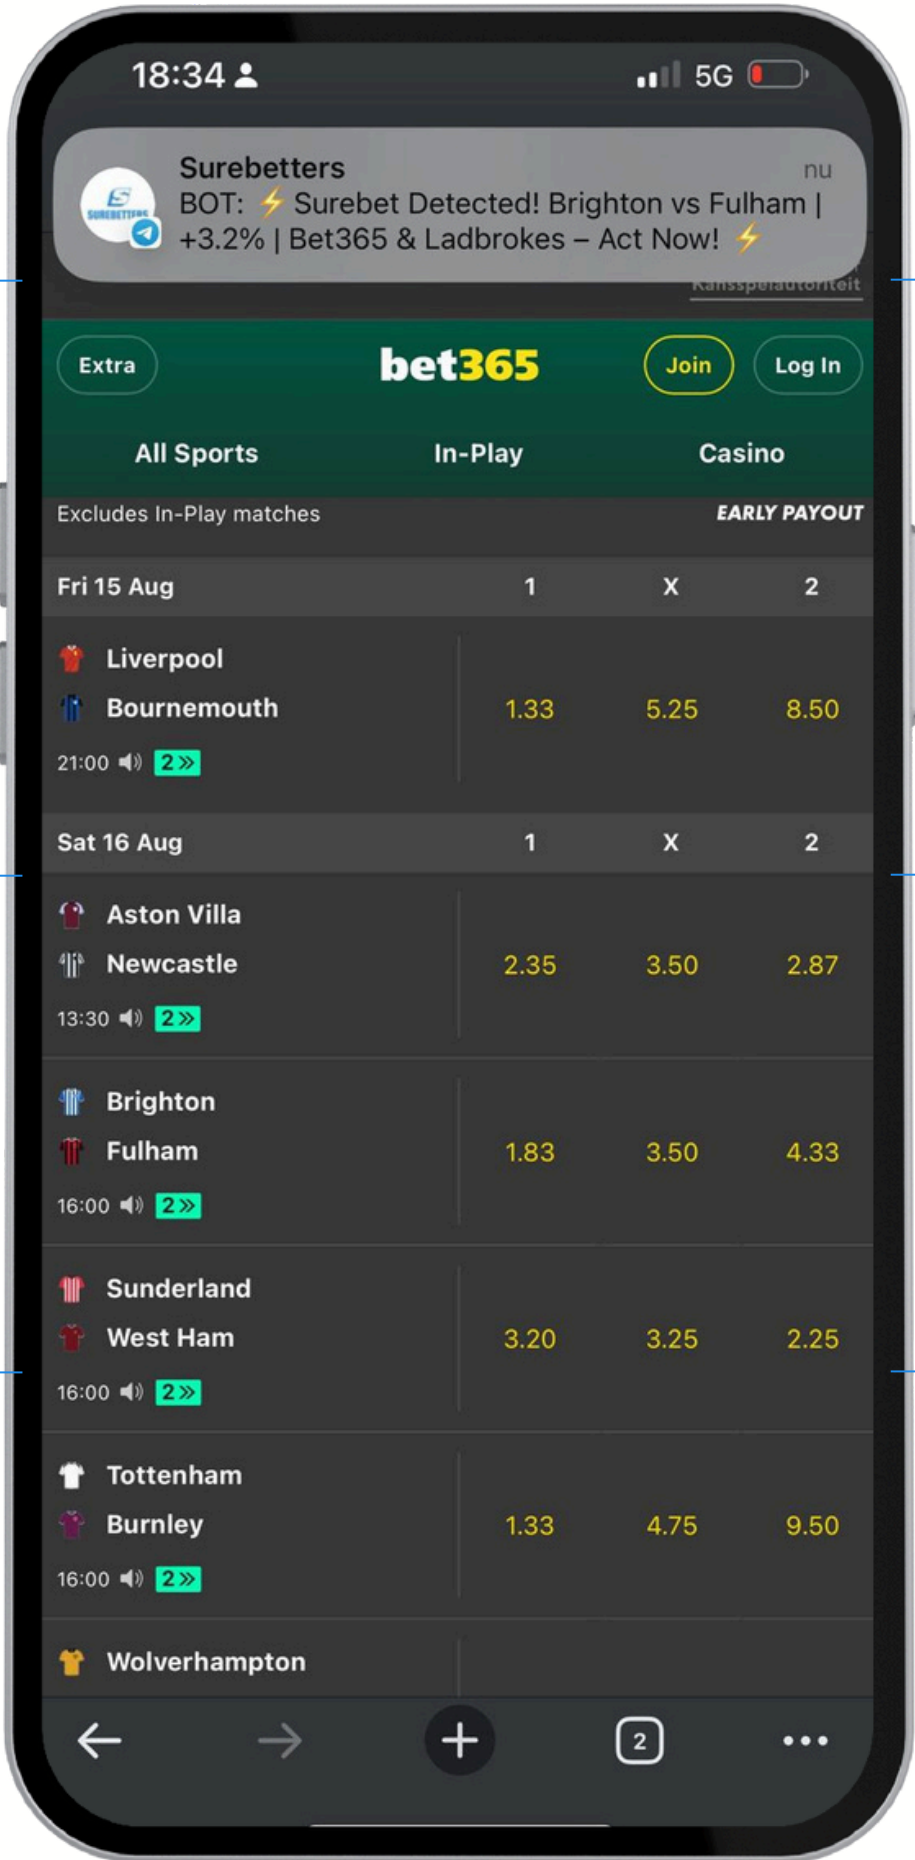

As soon as a surebet is found, you'll receive a push notification with the match, bookmakers, and profit percentage

Open the Bookmakers

Click the bookmakers mentioned in the alert and find the exact match and odds.

Use the Surebet Calculator

Input the odds and your total stake into our calculator. It tells you exactly how much to bet on each side for guaranteed profit.

Double-check

Odds can change, so always double-check when placing your bets

Place the Bets

Follow the instructions, place the bets on both bookmakers, and lock in your risk-free profit—no matter the outcome.

Repeat & Scale

New surebets are scanned 24/7. Stay notified, act fast, and repeat the process as often as you like.
